BUSINESS AND GENERAL INFORMATION

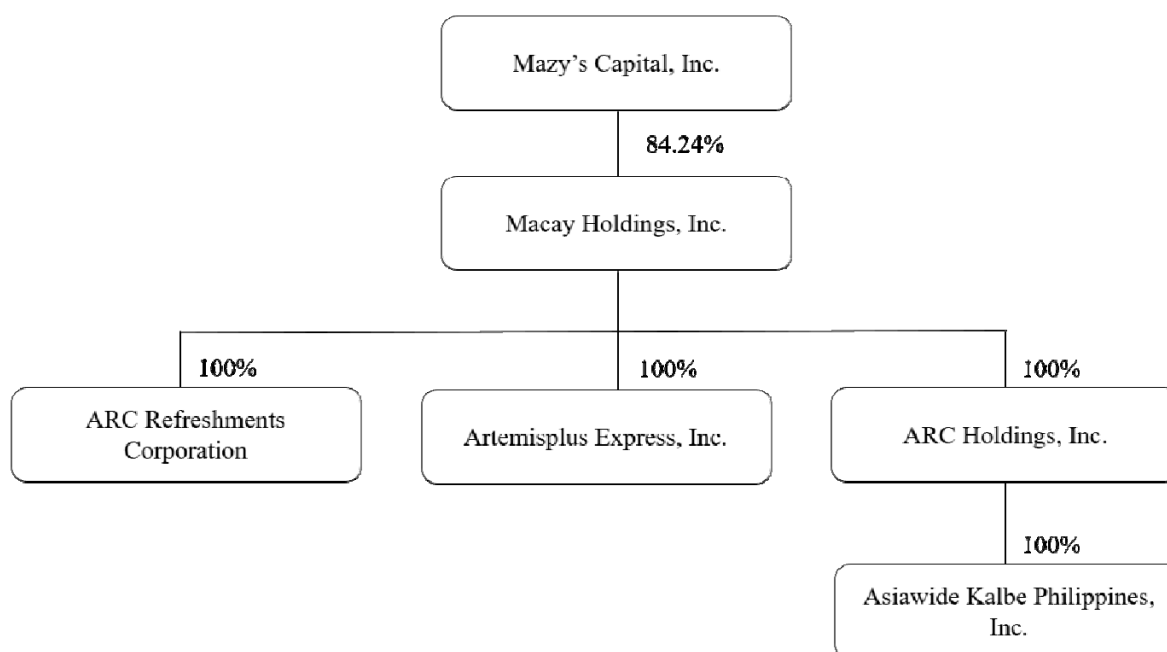

Item 1. Business

Macay Holdings, Inc. ("the Company" or "Macay") is a company incorporated in the Philippines and registered with the Securities and Exchange Commission ("SEC") on October 16, 1930. Its common shares of stocks are listed with the Philippine Stock Exchange ("PSE") under the ticker symbol "MACAY". The Company currently operates as the listed investment holding entity for Mr. Alfredo Yao and family's ("the Yao family") carbonated beverage businesses. Its wholly-owned subsidiaries ("the Subsidiaries") include ARC Refreshments Corporation ("ARC") and ARC Holdings, Inc. ("ARCHI"). Macay and its Subsidiaries are collectively referred to in this official document as "Macay Group" or "the Group".

Formerly known as Maybank ATR Kim Eng Financial Corporation ("MAKEFC") with a trading symbol of "MAKE", Macay used to operate as a holding company with interests in investment banking, financial advisory, life insurance, real property development and securities. However, Macay evolved as it underwent a series of corporate changes and transactions:

- **September 2013-** Mazy's Capital, Inc. ("MCI"), a Philippine company owned by Zest-O Corporation and Mega Asia Bottling Corporation ("Mega Asia"), executed a share purchase agreement with Maybank Kim Eng Holdings Limited stipulating that the latter divest its entire shareholding in MAKEFC.
- **October 2013 -** MCI acquired 89.76% interest in MAKEFC for Php 3.19 billion. MAKEFC, on the other hand, sold its entire equity stakes in AsianLife and General Assurance Corporation and ATR KE Land to Maybank ATR KE Capital. After the transaction, MAKEFC primarily retained cash and receivables in its asset portfolio.
- **November 2013-** MAKEFC's Board of Directors ("BOD") approved the Company's investment in a food and beverage company.
- **December 2013-** The BOD approved the change in trading symbol from "MAKE" to "Macay"; while the shareholders approved the change in corporate name from "Maybank ATR Kim Eng Financial Corporation" to "Macay Holdings, Inc.".
 - ARC was formally incorporated.
- **January 2014 -** The SEC approved the change in the Company's corporate name.
 - ARC executed an asset purchase agreement with Mega Asia and Asiawide Refreshments Corporation ("Asiawide"). ARC acquired substantially all of the assets (e.g. machinery, equipment and bottles) of Mega Asia and Asiawide used in their manufacturing, bottling and distribution operations for Php 1.57 billion.
- **August 2015 -** Macay acquired 100% ownership of ARCHI, which has the Concentrate Supply Agreement ("CSA") and the Trademark Licensing Agreement ("TLA") with Royal Crown Cola International ("RCCI").
- **September 2020 -** Macay acquired 100% ownership of Artemisplus Express, Inc. ("AEI"), which primarily engages in the business operations of cafeterias, canteens, institutional dietary kitchens, refreshment parlors and catering enterprise under the trade name of Kitchen City.

As of December 31, 2022, the Macay Group exhibits the following ownership structure:

Within the Group, Macay serves as the investment holding company while the Subsidiaries handle the day-to-day operations of the business. Given this, the reader may refer to the separate discussions under ARC ARCHI and AEI. for the required disclosures on products, services, markets, distribution methods, industry, competitors, raw materials, customers, research and development, regulatory approvals and intangible assets like trademarks, patents and licenses.

Transaction with Related Parties

Parties are considered to be related if one party has the ability, directly, or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions; and the parties are subject to common control or common significant influence. Related parties may be individuals or corporate entities. Transactions with related parties are made on an arm's length basis.

Related party transactions are discussed in detail in Note 19 of the Notes to the Consolidated Financial Statements of the Macay Group.

Employees

As of December 31, 2022, Macay Group had a total of 3,674 full-time or regular employees (excluding contractual and temporary employees).

Macay Group's management believes that labor relations are generally healthy at Macay and at its Subsidiaries. As of December 31, 2022 Macay had two full-time employees none of whom are members of any union or covered by a collective bargaining agreement ("CBA"). Macay is estimated to maintain this current number of employees over the next 3 months, and will augment its headcount for compliance, investor relations, business development and internal audit divisions. *Refer to the separate discussions on the Subsidiaries' employees under the sections "ARC Refreshments Corporation", "ARC Holdings, Inc." and "Artemisplus Express Inc."*

Risk Management

The BOD, through the Audit Committee, exercises overall oversight function over the Management's activities involving the identification, assessment and management of the Group's risks. This function includes regular receipt from the Management of information on risk exposures and risk management activities.

The Group's financial risks are as follows:

Credit Risk. Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. To manage such risk, the Group monitors its receivables on an ongoing basis. The objective is to reduce the risk of loss through default of counterparties.

Liquidity Risk. Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group manages this type of risk by ensuring that sufficient cash is maintained to cover daily operational and working capital requirements; and monitoring its future and contingent obligations and setting up required cash reserves as necessary in accordance with internal policies.

Foreign Exchange Risk. Foreign exchange risk refers to the risk to earnings or capital arising from changes in foreign exchange rates. The Group manages this risk by closely monitoring its cash flow position and by providing forecast on its exposures in non-peso currency (especially the US Dollar).

The financial risks discussed above are presented in detail in Note 23 in the Notes to the Consolidated Financial Statements of the Group.

ARC Refreshments Corporation

ARC was incorporated and registered with the SEC on December 4, 2013 and is currently one of the major bottlers and manufacturers of carbonated soft drinks in the Philippines. The Yao family used to operate its soft drinks business through Asiawide, which was established in 2002 to bottle, market and distribute RC Cola in the Philippines; and Mega Asia, which was established in 2007 to undertake bottling operations for Asiawide pursuant to a tolling arrangement. However, on January 31, 2014, ARC executed an asset purchase agreement covering the operating assets of Mega Asia and Asiawide except for land, building and certain bottling equipment. This transaction centralized majority of the carbonated beverage business of the Yao family under ARC.

Principal Products and Services

ARC derives revenues from the sale of its soft drink products and from its toll manufacturing activities. As of December 31, 2022, ARC manufactures, bottles, markets and distributes the following soft drink products:

<i>Brand</i>	<i>Description</i>	<i>Ownership</i>	<i>Packaging</i>

* RGB = Returnable Glass Bottle

** PET = Polyethylene Terephthalate

For the years ended December 31, 2022, 2021 and 2020, the cola-flavor brands contributed more than half of ARC's total net sales. In terms of packaging, the RGB format accounts for a great majority of ARC's sales volume.

On the other hand, ARC is also engaged in toll manufacturing, currently bottling "Extra Joss" for Asiwade Kalbe Philippines, Inc. ("Asiwade Kalbe"). As of December 31, 2022, 2021, and 2020, toll manufacturing activities contributed less than 1% of ARC's net sales.

Distribution Methods and Target Markets

ARC employs a multi-channel distribution system in selling its products to its target consumers, who primarily belong to the middle- and low-income categories. ARC distributes its products either directly or indirectly to various retail points nationwide, which provide direct access to our target segments. These retail points include both traditional trade channel which covers sari-sari stores and carinderias; and modern retail channel which covers supermarkets, hypermarkets, groceries, convenience stores and food service outlets. As of December 31, 2022, ARC products were predominantly sold or consumed through the traditional trade channel.

To service both retail channels, ARC employs its network of company trucks, master dealers, sub-dealers and third-party distributors.

Competition

The carbonated soft drinks industry in the Philippines is highly competitive and continues to evolve in response to changing consumer preferences. Competition is generally based upon brand recognition, taste, quality, price, availability, selection and convenience. For all carbonated soft drinks in the local market, ARC competes with dominant multinational corporations with significant financial resources such as Coca Cola and Pepsi.

Raw Materials

The principal raw materials that ARC uses in its business are concentrate, sweeteners, and packaging materials such as glass bottles, PET bottles and caps, and aluminium cans and ends. It also uses water, carbon dioxide and electricity. ARC purchases cola concentrates from ARCHI, which in turn acquires the same from RCCI under the CSA. For the other major raw materials, ARC maintains at least two to three suppliers.

Patents, Trademarks, Copyrights, Licenses, Franchises, Concessions, and Royalty Agreements Held

ARC has maintained its relationship with RCCI, the owner of the RC Cola brand outside North America and Mexico. RC Cola is one of the original American colas with a history spanning over 110 years. It was created in the United States in 1905, and the brand has enjoyed a long track record of success both within the United States and globally. The Yao family's relationship with RCCI started in 2003 and was formalized in 2005 when RCCI and ARCHI executed the CSA and the TLA (*For a description and status of these agreements, refer to section "ARC Holdings, Inc."*).

Moreover, ARCHI executed a Bottler's Agreement ("BA") with Asiwade under which Asiwade was authorized to produce, sell and distribute RC Cola products in the Philippines and to purchase concentrates from ARCHI. Under the BA, Asiwade was permitted to use the RC Cola trademarks consistent with ARCHI's TLA with RCCI. In the reorganization made in 2014, ARC acquired Asiwade's rights and obligations under the BA.

ARC also owns a variety of intellectual property rights for its in-house brands which it has developed over the years.

We have several casual employees working in our business at any time, mostly as manual laborers. We contract with third-party manpower and services firms for the supply of this labor. The number of casual employees we require varies seasonally. The Macay Group is a non-unionized company.

ARC Holdings, Inc.

ARCHI was formally organized in December 29, 2005 by the Yao family to serve as an investment holding entity. Its key corporate milestones are as follows:

- In 2005, ARCHI executed a CSA and a TLA with RCCI. Under the CSA, ARCHI is authorized to purchase concentrates from RCCI to produce RC Cola and its beverage variants for sale and distribution within the Philippines.

Under the TLA, which is co-terminus with the CSA, ARCHI is given the right to use RCCI's trademarks in connection with the sale and distribution of its beverage products within the Philippines.

On the other hand, ARCHI also executed a BA with Asiawide. (*Refer to previous discussions under "ARC Refreshments Corporation"*)

- In 2011, ARCHI entered into an agreement with Kalbe International Pte. Ltd ("Kalbe International"), to establish a joint venture ("JV") entity to implement a project to (a) market and sell energy drink in ready-to-drink form bearing the "extra joss" mark ("the product"); (b) appoint a toll manufacturer to produce the product; and (c) appoint a distributor to distribute the product, all within the Philippines.

The JV entity was incorporated as Asiawide Kalbe, which is fifty percent (50%) owned by ARCHI and fifty percent (50%) owned by Kalbe International. Both companies will share equal control and management over the operations of the incorporated JV entity.

- In August 2015, Macay acquired 100% ownership of ARCHI.

ARCHI primarily derives revenues from management fees charged to ARC. It also recognizes its share in the net income of the JV entity Asiawide Kalbe.

Artemisplus Express Inc.

Kitchen City, operated by Artemisplus Express Inc., was started in 1999 and has grown to become the leading food solutions provider in the Philippines. From its start as an operator of smaller canteens servicing manufacturing companies in South Luzon, it expanded into servicing hospitals, hotels, schools, offices BPO's, and institutional catering services.

Principal Products and Services

Kitchen City currently derives revenue from providing food solutions through two brands: Kitchen City Express (KCE) and Kitchen City Catering (KCC). Kitchen City Express operates the food concession business, with a slate of prominent clients including Citibank, HSBC, St. Luke's, Accenture, Concentrix, and The Asian Development Bank. Kitchen City Catering, meanwhile, operates the institutional catering events services business, providing full service corporate catering to its clients. KCC is accredited in 16 of the country's top event places (including the SXM Convention Centers and the World Trade Center Manila), and has partnerships with 11 venues within the key cities of Metro Manila.

Competition

The food solutions industry is extremely competitive, as there are relatively low barriers to entry and good returns to be earned, combined with (under normal circumstances) continuous and always increasing demand. The vast majority of this competition is focused on the non-institutional client segment, however, as they do not have the infrastructure in place to deliver consistent quality in high quantity, nor the financial resources to satisfactorily service clients requiring this.

Employees

As of December 31, 2022, KitchenCity had a total workforce of over 2,254, people serving over 100,000 meals a day.
